

Training Center – First Aid Training

Infection Control Measures for Corporate / Group First Aid Training Course

Considering the situation of 2019 Coronavirus Disease (COVID-19), the first aid training courses of corporate / group are advised to take the following preventive measures according to the guidelines of Hong Kong Red Cross (HKRC).

Training Venue

- Corporate / Group should provide a training / examination venue with adequate area to keep proper social distance from others.

Before Training

- Corporate / Group should make sure all students attend the training / examination without infection of COVID-19 or fever.
- Students who **got fever**^[1] must terminate their training / examination immediately and seek medical consultation as soon as possible.
- All students, lecturers and staff should **have their body temperature checked**, wear their own surgical masks and clean their hands with alcohol-based handrub before entering the training or exam venue.
- If student has signs of fever or respiratory symptoms during training / exam, course coordinator should arrange body temperature measurement again. If fever is noted, same action should be carried out as above.
- Corporate / Group should inform their participants about the above measures by email and post a corresponding notice at the entrance of the venue before commencement of the training / exam.
- **Hong Kong Red Cross reserves the right to terminate the training or examination for students who are suspected of being infected**

During Training / Examination

- Corporate / Group should provide alcohol-based handrub to all participants (including staff, students and instructors) at the training / exam venue. And all participants should wash hands thoroughly with liquid soap and water or alcohol-based handrub before and after the training / exam as well as entering the venue.
- For CPR training and exam, verbal instruction will be implemented instead of mouth-to-mouth artificial ventilation. In addition, chest movement observation is adopted for breath checking instead of look, listen and feel techniques
- No food and beverage would be allowed in training / exam venue (with the exception of water). Corporate / Group should provide a neat and clean venue for training / exam.

After Training / Examination

- Frequent cleansing and disinfection of the training / examination venue and training equipment (such as tables, chairs, mats, towels, etc.) should be enforced.

We will monitor and share the latest updates of COVID-19 to the corporates and groups as appropriate. If you have any enquiries, please contact our first aid training team.
